

# MEGA PROMPT : The Resurrection of Success - Goodvibes.com

---

## Objective

---

Create a cinematic marketing video for **Goodvibes.com**. The narrative must follow the deep emotional journey of a **depressed, broken individual** who finds a life-changing idea: transforming store clearance and unsold items into high-energy **Live Show Auctions**.

---

## The Narrative Arc: “The Epiphany of the Forgotten”

---

### Act 1: The Abyss (0-20s)

- **Visuals:** Cold, blue-toned cinematography. A person sitting in a dark room, head in hands. The weight of failure is visible. They are surrounded by debt notices and a sense of total despair.
- **Emotion:** Deep depression, hopelessness, silence.
- **Message:** “When you’ve lost everything, even hope feels like a burden.”

### Act 2: The Spark in the Rain (20-35s)

- **Visuals:** The person is walking outside, head down. They pass a store throwing out high-quality unsold stock, clearance items, and “dead” inventory.
- **The Epiphany:** A close-up on their eyes. A sudden change in expression. The music shifts from a low hum to a rising, rhythmic heartbeat.
- **Idea:** “What if these forgotten items are someone else’s treasure? What if I could bring them to life?”

## Act 3: The First Live Show (35-50s)

- **Visuals:** The person sets up a simple phone stand. They start a **Live Show Auction** on **Goodvibes.com**.
- **Action:** They hold up an unsold item. Suddenly, the screen explodes with “Good Vibes” – hearts, comments, and rapid-fire bids. The person starts to smile, then laugh. The energy is infectious.
- **Feature:** Show the auction being broadcasted and synced with other e-commerce platforms simultaneously.

## Act 4: The Resurrection (50-60s)

- **Visuals:** Vibrant, warm colors. The person is standing tall, surrounded by a team, shipping out hundreds of items. They are no longer depressed; they are a leader.
  - **Closing Shot:** The Goodvibes.com logo over a shot of a thriving community.
  - **CTA:** “Goodvibes.com – Where forgotten stock becomes a revolution. Start your Live Show today.”
- 

## Cinematic Style

---

- **Visual Transition:** Start with “Grainy Noir” or “Cold Blue” and transition into “Vibrant High-Definition” with warm, golden hour lighting.
  - **Sound Design:** Use the sound of a ticking clock in the beginning, transitioning into the roar of a live crowd and upbeat, soul-lifting music.
  - **UI Integration:** Use sleek, futuristic AR overlays to show the bidding process during the live show.
- 

## Execution Script for Manus

---

“Manus, produce a cinematic video script for Goodvibes.com. Focus on the emotional depth of a depressed person finding hope by auctioning store clearance items. Use the ‘Epiphany’ narrative. Provide a detailed storyboard, camera angles, and AI generation prompts for tools like Sora, Runway Gen-3, and ElevenLabs for the voiceover.”
